ORGANIZATIONS

ACI & ICRI

Mr. Starling serves as a Principal Engineer with 15 years experience in structural and forensic inspection, materials testing and construction estimation. He currently is a registered professional engineer in Arizona, holds 6 licenses with ICC, ACI Grade 1 field certification, EIFS inspector and he is the qualifying party for the company's Class A General Engineering contracting license. He has spent a combined 11 years with Starling Madison Lofquist as a division manager and field inspector. He spent 6 years with Ninyo and Moore as a Project and Operations Manager.

PROFESSIONAL EXPERIENCE:

2014 – Present Starling Madison Lofquist

Inspection and Testing Division Manager - Performs structural and forensic inspections, construction defect litigation support and business development. Maintains inspection program, oversees training of inspectors and ensures that testing procedures comply with applicable standards and specifications.

Jeff is a current board member for the Arizona chapter of ICRI

2008-2014 Ninyo and Moore

Project Manager – Managed clients and projects with construction materials testing and quantities takeoffs for new commercial and residential construction project, worked closely with municipalities through on-call contracts testing and inspecting municipal capital improvements projects. Also performed inspections and testing for forensic geotechnical investigations.

Operations Manager – Managed, trained and supervised 25 technicians in 3 offices for construction materials testing. Managed nuclear density gauges complying with codes and regulations. Ensured staff complied with all municipal, state and federal standards and specifications regarding construction of new commercial and residential projects.

2002-2008 Starling Madison Lofquist

Field Inspector/Draftsman – Performed structural and forensic inspections for new construction projects, insurance claims and construction defect litigation cases. Design and drafting for swimming pools and appurtenances.
